Página inicial ROM Hacks • Pokémon Mega Power [v5.62] • ROM Hack • GBA Artigo por HEY!PIKACHU Descrição: Neil, um talentoso cientista da região de Ivara, está tentando criar um poderoso Pokémon chamado Mewtwo, e ele fez isso. No entanto, isso não é suficiente para ele, pois ele tem o desejo de deixá-lo mais forte. Ele quer transformá-lo em um Pokémon que possa obter sua forma Mega sem as mega pedras comuns, mas infelizmente, ele não tem dinheiro para manter essa pesquisa. Quando pensa que tem que desistir, um homem chamado Kasper aparece, este homem é um empresário, além do mais, é o líder do Team Delta, uma misteriosa organização da Região de Ivara. Ele disse que pode ajudar Neil a terminar seu experimento. Neil não tem escolha, ele se junta ao Team Delta. No entanto, ele ainda está se perguntando, por que Kasper o ajudou? Ele deve confiar neste homem? Will it change the future?" Introduction: Neil/Tyra, a gifted scientist of Ivara Region, is trying to create a powerful Pokémon called Mewtwo. Neil/Tyra did it. However, this is not enough for Neil/Tyra. Because he/she want to make Mewtwo stronger. He/she want to turn it into a Pokémon which can mega evolve without ordinary mega stones, but unluckily, he/she has no money to keep it up. When he/she thinks that he/she has to give it up, a man called Kasper showed up. This man is a businessman, what's more, he is the leader of Team Delta, a mysterious organization of Ivara Region. He said that he can help Neil/Tyra to finish his/her experiment. Neil/Tyra has no choice, he/she joins Team Delta. However, he/she is still wondering, why did Kasper help him/her? Should he/she trust this man? Features: New regions(Ivara, Lande, Sevii Islands), new gyms(Of course) All mega evolutions Some 4th gen, 5th gen, 6th gen and 7th gen Pokemon Some new tiles(Maybe a bit rough,it's not easy to draw them...) Screenshots: Tools Used: ADVANCE MAP 1.92 ADVANCE TRAINER V0.9 UNLZ-GBA Beta1 CrystalTile2 YAPE 0.9 OverworldEditorRE FSF XSE ...and some more tools(I cannot remember if there's any other tools used) Credits: MrDollSteak - New Type hack Percy, who helped me to add the Repel System. Punkysaur, who fixed the beginning introductions. Jambo51/jirachiwishmaker - Pre-battle Mugshot jiangzhengwenjzw - Expand Trainer sprites, party delete routine and so on Strange Kid - 40% of the grammatical corrected dialogues and the backsprites of players(In fact, he made some more amazing sprites for me. However, for some reasons, I couldn't use all of them.) ...Did I forget anyone? The following Pokemon are not obtainable in the main storyline, so I decided to make them obtainable in the Adventurers' Club. Enter the passwords, and you'll get them. Suicune: 7X9B5L4K08 Entei: 55V3Y7I823 Raikou: 12DE7F4G1K Type: Null: 6TY79855C7 Keldeo: 9B7YJ015C9 Support Bar: This cover is made by Aron_90. I'm very appreciated for this. Glitches: Some trainers doesn't know how to use items properly. Some bad eggs may appear randomly, please don't touch them. Download link of the Beta5.62(UPS file): Mega+Power+Beta+5.62+Completed.rar/file The new patch fixed the following glitches: The method of transforming Hoopa was changed, now you use the prison bottle like an evolution stone to change between its two forms. Some more special decorations can be bought in Colchicine City. Wild Mega Sharpedo and Type: Null existed. Some battle sprites are wrong. A great amount of text errors. Blastoise and Mega Blastoise have different leveling rates. Male Tsareena existed. Some movement/map errors. What's new: In-game exp. all patch, which can be unlocked here by paying 4000 pokedollars. Credits to Samu from Whack a hack foro for the asm routine. Many mugshots were redone thanks to Strange Kid(These were done long time ago, but I was too busy to put them in the actual game). The bad egg problem could have been fixed in the new patch as well, but I'm only 70% sure about it. It's possible that old save file won't work with the newest beta, so I prepared a patch which has no the bad egg fix thing so that save files from older versions can also use the bugfix stuff except for the bad egg fix. Beta 5.61(with no bad egg fix): Mega+Power+Beta+5.61+Completed.rar/file What's fixed i the previous Beta 5.60: Talking to some npcs in the Delta Hideout II when you play the normal storyline would make the game freeze. The way how the choice-based storyline works was changed. In the previous patch, the result of each choice does affect your story, but I decided to let players change their decisions at their own will, but in this beta, if you choose to change your previous choices, then you'll have to pay P100.000 for that. Which makes players know their choices do affect the story and they need to be responsible for their choices. A tile error in Colchicine City was fixed. Chronya's battle sprite and her dialogue in Baobab City was changed a little bit. Oliva R.'s Pokemon location/Hidden Items guide: The walkthrough of this hack: 20Mega%20Power%20Walkthrough.txt P.S.This hack is 100% completed. I think most glitches are fixed now. Woah, this is great, good luck ! I need to find time to play all of these awesome rom hacks getting released lately! I'm still currently playing one of your other games. Great storyline dude! Current Live Update: Build 3.0 RC 2.73 No more Flag Errors! Always periodically make backup saves! Sweet hack man. Story is great, battle backgrounds look sweet, tiles look good. Really love the city in row 3. So far my favorite city. Great features man. Getting now to play. Good luck with it. POKEMON REVENGE TEAM IS looking for members APPLY HERE so the hack can continue. 3Ds Fc= 0619-4312-9526 IgN is Near My trade shop is here Oh great, finally you make a thread of this hack, it's cool to see a lot of Mega evolution here Going to play this when it's finished. It looks amazing. I've beat both Victory Fire and Resolute, but this one looks improved. I love the trainer sprite (Looks like a edited version of Prof. Avery from Resolute. :P) Anyways, good job on this one. Keep progressing (- Supporting Hacks: "It takes years To earn trust But seconds to Break it." Maybe its too early to report bugs but I found one and thought you should know as soon i get out of the cave and try to take the item on the lower left side of the screen the game freezes I've started playing it and I noticed a bug. If you loose on the first road, you end up in the next city. Whatever, my first impressions of your hack were very good though, but I'm stuck. I talked to Kasper in the city, but now I do not know where to go. Can you tell me where I have to go? Hopefully, no Random Bad EGG encounters anymore. I hate these. Woah! So many new hacks comin' out!! Anyways, I really like those battle backgrounds but the sprites kinda looks Off for a reason. It looks so jagged and wavy. Might I suggest using MrDS's sprites in his 6th Gen Sprite Resource project? I'm not a spriter but this hack is seriously looking GOOD... Yes!! the long waited "sequel!" :D :D i look into this :D Dude, This Totally Awesome i love the Battle Background & the Split-Storyline. 1158, Good Luck With This:) i'm Supporting This Rom Patching Tutorial with FAQ (PC,Mac,iOS & Android) : Hacks I Support: Pokemon - Ruby Destiny Series - destinedjagold Pokemon - Dark Rising Series - DarkRisingGirl Pokemon - Glazed - redriders180 Pokemon - Normal Version - FrozenInfernoZX Pokémon - Mirage Of Tales: A New Age Dawns - Avaramoon Pokemon - Z Version - Rezordaxx Pokemon - The Leola Project - Winter Wonderland Pokemon - Platinum Red - gogojtech Pokemon - Hero's Path (Remake) - Veng3anc3 Pokemon - Daydream White Version - SK3 Pokemon - Black 'n White (Demake) - ~GOLD! And Many More This looks great. I love everything but the pokemon sprites in battle they need some work. I suggest using Chaos Rush and Mr.Dollsteak's sprites because of how good they look, (and for the fact that they will make this look so much better. That being said; keep up the great work. I'm looking forward to seeing how this will end. Awesome! A new hack! I'm sure I'll enjoy it! The hacks i support: yay another hack by 1158. i confirm play one lah! I would like to point out that when I played it during the beginning bit when you and the aide talk to the intruder the aide (female in this case since i was playing male) wound up with a pallet error but in that room only because when i got back to the first room she was fine. I shall look to see if it happens when playing female as well. EDIT:It occurs with the male aide as well. This looks pretty interesting. I'll be looking forward to play it when first alpha or beta comes ! And Mega Evolution idea is good. And Persian Statues are making it more beautiful! Good Luck Johto League Showdown Hack Thread Looks good so far.... Good luck on your hack :) Būrhīg Émōtiōn§ Looks very good, keep it up.What are the starters and are Gen 6 starters available Looks like it will be easily you best yet, do we get to pick our starter in this one, as I remember none of your other hacks had that choice I am making a hack PM me if you want to help Wow, love your titlescreen! How'd you do it? :P The battle background, sooooo awesome. I like it :) Hope this have a few bugs though (or none at least :) Good luck! Is there any way to put in hack some new poke abilities or at least change or modify there effect? That would be cool if you could do that. just finish playing demo 1 great hack so far
